Water
Treatments

Fountains • Birdbaths • Water Gardens • Tabletops

- Safe for all types of fountain surfaces
- Maintains water always clear and algae-free
- Keeps surfaces scale-free, stain-free and looking new
- Non-hazardous, non-foaming and non-staining
- Eliminates harsh cleaners and scrubbing
- Protection lasts weeks, not days

Fountec Algaecide-Clarifier

Fountec's organic polymers keep statuary water cleaner, clearer, and algae-free without chlorine and laborious scrubbing. This EPA registered product utilizes a unique control mechanism to kill and inhibit algae without harming the environment. Unaffected by heat, sunlight and evaporation, Fountec also outlasts and outperforms copper, enzyme and quat based products. A small dose of Fountec lasts up to a week or more and is very economical due to its concentrated formula. Fountec treated water is very safe for birds, plants, pets, and animals, *but this formulation is not safe for fish.*

- Keeps Water Always Clean, Clear And Algae-Free
- Kills And Inhibits All Types Of Algae Growth In All Types Of Waters
- Fast Acting • Small Weekly Dose • No Chlorine Needed

Protec Scale-Stain Protector

Protec's powerful dual-action formula makes it very easy to maintain the beauty water statuary surfaces. Protec contains a unique blend of advanced organo-phosphonates for superior protection against both white calcium mineral buildup and metallic stains. Protec will prevent and remove existing mineral deposits and metal stains on all types of statuary surfaces. This product will also help prevent pump damage due to hard water buildup. Protec also significantly reduces distilled water use for indoor fountains. Protec treated water is very safe for birds, plants, animals and fish. Protec is long lasting ... a single dose lasts up to a month or longer.

- Keeps Water Surfaces Continuously Clean And Looking New
- Prevents And Removes White Calcium Buildup And Metal Stains
- Protects Water Pump • Small Monthly Dose • No Distilled Water
