BEAUTEC® Scale-Stain-Scum-Salt Cell Controller

Excellent for Salt Pools, Chlorine Pools and Non-chlorine pools

Prevents, Removes, Continuously Cleans.

Beautec® is the only product that prevents all calcium and hard silica scales, that acid will not remove. Beautec's® Synertec™ technology provides unsurpassed surface protection and continuous cleaning.

- **Highly effective formula is both acid and phosphate free.**
- **Cleans tile, surfaces, equipment and salt cells continuously.**
- **Only one bottle provides 6 months of superior results.**

For Scale, Stains, Scum, Salt Cells.

Provides multi-scale, stain and scum control. Eliminates tedious scrubbing and harsh acid cleaners. Keeps salt cells exceptionally clean and free of calcium-silica scales.

- **Eliminate the need for enzyme treatments for oil and scum control.**
- **Descale salt cells and heaters without acids.**
- **Exceptional chlorine stability that lasts for months, not weeks.**

Keeps Pool Surfaces looking Beautiful.

Beautec® provides affordable year round maintenance free protection of your entire pool. A must use after Startup-tec® for new and remodeled pools.

- **Keeps all pool surfaces and tile looking new.**
- **Protects your pool investment.**
- **Eliminates future, damaging acid washing of your pool.**

HOW IT WORKS:

Beautec's® advanced Synertec formulation combines a blend of high performance polymers that utilize a complex mechanism of threshold inhibitors, crystal modification and sequestration to accomplish effective preventative and ongoing removal of all mineral scales, deposits, stains, and scum on pool surfaces. Beautec's® exceptional performance is due, in part, to its extreme chlorine stability.
