POOLTEC® Fall/Winter Water Treatment

Superior Winter Algaecide & Clarifier

1 Superior Winter Algaecide Clarifier.

Pooltec® Fall Winter treatment provides strong, long lasting winter protection. Pooltec® works with or without chlorine sanitizers.

- **Maximum winter protection for all pool types.**
- **Will not breakdown like other winter treatments like chlorine.**
- **Kills, inhibits and clarifies water until spring.**

2 Strong One-Step Treatment.

Unlike other winterizing products and kits, Pooltec® completely treats winter pools with only one or two applications.

- **Treats covered, safety-mesh and uncovered pools.**
- **Outlasts winterizing kits.**
- **Effectively prevents green, yellow and black algae.**

3 Protection Lasts from Fall to Spring.

Pooltec® gives you the assurance that your pool will be clean and algae-free at spring opening.

- **Prevents spring cleanup time and expense.**
- **Continues to work while chlorine is gone.**
- **Protection not effected by heat, sunlight or evaporation.**

HOW IT WORKS:

Pooltec's® enviro-safe polymers uniquely synergize with all types of sanitizers to provide superior water quality, ultra high clarity, and improve water sanitation. Unique cationic polymeric compounds function as a broad spectrum, non-oxidizing algaecide-microbicide that kill and control the growth of microorganisms by disturbing their normal metabolic process of the living cell. This process achieves a super-sanitized condition at standard oxidizer levels, including salt cells systems to achieve a more pleasant swimming experience.

Customer Reviews. . . Join thousands of satisfied customers, try POOLTEC® today!

"Put this in our in-ground pool before closing it for the winter. When we opened it in the spring and removed the cover, the water was clear. Highly recommend" - Chuck

"This bottle here is powerful and amazing, it brought my swamp back to blue in 48 hours. I will definitely be keeping this on hand from here on out." - Linda

"Winterized my above ground pool and added this over a month ago and the water is still crystal clear." - Mike
